Editorial...

The Problem Solver

WELCOME to *Software Index* and thank you for buying our first issue. We hope you find it invaluable. SI is not like any other magazine, in fact it is not really a magazine at all, more a catalogue with a difference. There are no reviews of new micros, no long sections of programs for you to laboriously punch into your micro and spend hours debugging; in fact it is not a magazine anyone will sit down and read from cover to cover for pleasure.

What SI will do is solve your software problems by showing most of what is available for the eight micros we presently cover. If you want to learn Boolean algebra on the BBC, cruise down Broadway on a Dragon, land a Harrier on Oric, sort out the VAT man with Commodore, sing to your Sinclair, make faces at Atari, or almost anything else, then *Software Index* will point you in the right direction.

There are a couple of things you should be aware of when you are scanning our pages:

First there is a certain amount of software available from small companies that is not listed in the Index. There is a very good reason for this which is fully explained on the Information page. Please read that page, We think you will find it very helpful.

Second, all the data given about each piece of software has been supplied by the producer or importer of that software. The program description is theirs and is **not an SI review.** The information has however been edited by us to ensure it is factual, i.e. Joe Soap Software has not been allowed to say that his Frogger program is one jump ahead of everyone elses, or that his pools program will win you £100,000 (unless he can prove it!).

Missed!

In compiling this first issue a number of problems have arisen due to the nature of the business and the sheer volume of available software. One of the biggest problems has been in making sure we contact all the software houses, not easy when there are so many and new ones start almost daily. We have compiled a list of nearly 600 companies.

The problem is further heightened by the fast growth of many companies necessitating a move to larger premises. If we have missed your company we apologise. Please let us put matters right by contacting us so you can be included in the next issue — more details are given on the Information page.

Up To Date

We would just like to point out that although Software Index will only be published quarterly and forms a reference for its three months 'life', each issue is as up to date as a monthly publication when it goes on sale. Our production schedule has been contained within one month to make sure all the information is current.

We anticipate our next issue being considerably expanded due to new pograms, new companies (and any we missed) and a number of programs for which data is still to come from large companies. The latter being aggravated by delays in the post which now appear to be a fact of life. We also hope to include far more screen photos if these are available.

Finally, if you have any comments or criticisms (please be constructive) on this first issue we would like to hear them. Our aim is to meet your needs.

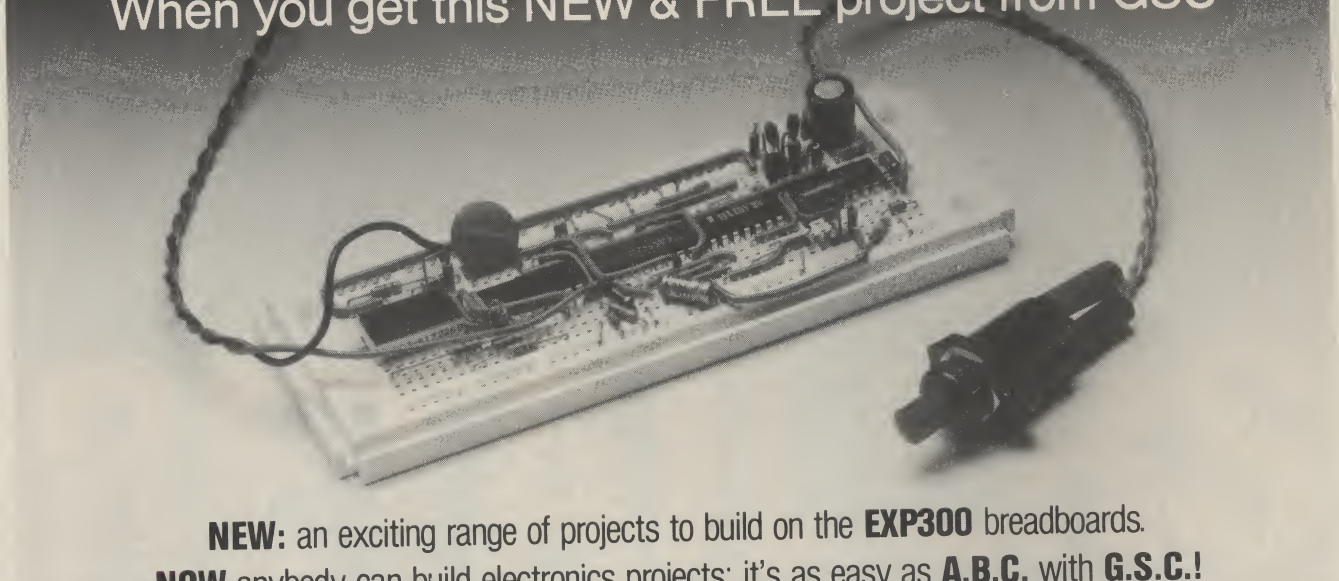
When you get this NEW & FREE project from GSC

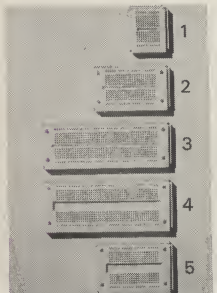


NEW: an exciting range of projects to build on the **EXP300** breadboards.

NOW anybody can build electronics projects; it's as easy as **A.B.C.** with **G.S.C.!**

EXPERIMENTOR BREADBOARDS

The largest range of breadboards from GSC. Each hole is identified by a letter/number system. EACH NICKEL SILVER CONTACT CARRIES A LIFE TIME GUARANTEE. Any Experimentor breadboard can be 'snap-locked' with others to build a breadboard of any size.



1. **EXP 325 £2.00** The ideal breadboard for 1 chip circuits. Accepts 8, 14, 16 and up to 22 pin ICs. Has 130 contact points including two 10 point bus-bars.

2. **EXP 350 £3.45** Specially designed for working with up to 40 pin ICs perfect for 3 & 14 pin ICs. Has 270 contact points including two 20 point bus-bars.

3. **EXP 300 £6.00** The most widely bought breadboard in the UK. With 550 contact points, two 40 point bus-bars, the EXP 300 will accept any size IC and up to 6 x 14 pin DIPS. Use this breadboard with Adventures in Microelectronics.

4 **EXP 600 £7.25** Most MICROPROCESSOR projects in magazines and educational books are built on the EXP 600.

5. **EXP 650 £4.25** Has 6" centre spacing so is perfect for MICROPROCESSOR applications.

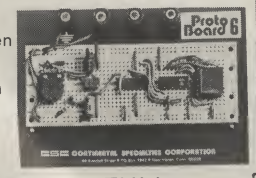
6. **EXP 4B £2.50** Four more bus-bars in "snap-on" unit.

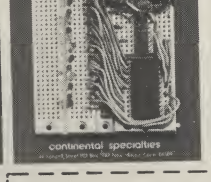
PROTO-BOARDS

The ultimate in breadboards for the minimum of cost. Two easily assembled kits.

7. **PROTO-BOARD 6 KIT £11.00** 630 contacts, four 5-way binding posts accepts up to six 14-pin Dips.

8. **PROTO-BOARD 100 KIT** Complete with 760 contacts accepts up to ten 14-pin Dips, with two binding posts and sturdy base. Large capacity with kit economy. **£14.25**





For further details of our FULL PROTO-BOARD RANGE, please send for our free catalogue.

FREE project:

AUTO-DICE

Liven up your board games with this sophisticated electronic dice circuit! When the 'throw' switch is pressed, a numerical display flashes up rapidly changing numbers. After a few seconds, the 'rolling' stops, and the final result is displayed; any number, randomly selected, from 1 to 6. A few seconds later the display turns off to conserve your battery, letting the games go on uninterrupted for weeks!

HOW DO YOU MAKE IT?

Our **FREE** project sheet gives you a large, clear diagram of the components layed out on an **EXP 300** breadboard. Each component is labelled, and the values are given in a component listing. Even the 'row and column' lettering of our **EXP 300** is shown to make the location of the correct holes, in which to push the components, easy to find. There's no soldering involved; **it couldn't be easier!** As an extra bonus, there's a full circuit description, and the details of a regulated power supply on the other side of the sheet.

"Clip the coupon" and get your **FREE** project sheet with each **EXP 300** bought. **AND** a **free** catalogue! Just ask about our other **free** projects too.

Information...

This section is designed to help you find your way around *Software Index* and get the most value from the information contained in these pages. Please read what follows carefully.

TYPE OF PROGRAM

Our listings are broken down by the type of machine and type of program. Obviously some programs are produced for more than one of the machines we list and in such cases they will be listed under each machine for which they are available. So you will only need to look at listings for your machine to see what is available.

What is perhaps less obvious is that some software crosses the 'type of program' boundaries, for instance there are a number of games that have an educational value and there are filing and banking programs that could be used for home management or business. In such cases we have tried to list the software under the most suitable heading, or under the heading suggested by the supplier. This does mean that it is worth looking through more than one category for what you require.

Just one other point regarding type of program; there are a few cassettes and other formats around containing a selection of programs that fall in different program categories, in such cases we have decided to place the listing under 'miscellaneous', so make sure you also check that section for your micro.

PRICE

In virtually every case the price shown is inclusive of VAT and very often the software is available mail order from the producer or importer — this is indicated by the 'AA' code in the retailer column (meaning as above) — for the same price including postage, etc. If in doubt we suggest you contact the company first, you should also do this if the issue has been around for some time.

Overseas readers please note that you should check prices and the export situation before ordering.

WHO'S INCLUDED

A large number of small companies run on a part time basis are not included in *Software Index*. We are not implying that small companies run in someones spare time are not reputable, but we have no way of checking out the hundreds of such operations and we have therefore had to draw a line somewhere at who can be included.

Such a line is difficult to draw and implement, however VAT registration gives an idea of minimum company turnover (if turnover is expected to be above £18,000 per annum the company must register) and thus some indication of a 'substantial' business operation. We have therefore included companies that are VAT registered, or companies whose products are sold through VAT registered retailers. This does not guarantee the viability of that company — even Rolls Royce can have problems! — but it should mean you are dealing with a professional operation.

COMPLAINTS

If you suffer from poor service, or total lack of service, from any of the companies listed, then please let us know *in writing* of the problem. It could be an isolated case but should we get many complaints about particular operations we can try to help and ultimately exclude them.

Incidentally if you respond to a mail order display advertisement in *Software Index* — as opposed to an editorial listing — then you are protected to some extent by the mail order protection scheme (this does not apply to classified advertising or items purchased from a catalogue by mail order), for more details see the Mail Order Protection notice in this issue.

RETAILERS

Information on retailers given in the data boxes is as supplied by the producer or importer. Where software is distributed by a wholesaler the producer may not be aware of all retail outlets. This is usually indicated by the code 'AA + others' ('AA' meaning as above). Since there are many thousands of retailers throughout the country it would be impossible to list them all.

If you have any difficulty getting the required software we suggest you contact the producer or importer at the address given. As mentioned above, most of them will sell direct anyway; even if they don't they can probably put you in touch with a company that will. Incidentally we have had to limit the number of retail outlets listed for each program to eight, there may be others so it is worth checking with your local suppliers.

COMPANIES NOT LISTED

If your company is not listed and is VAT registered or sells software through a VAT registered retailer (see above), please accept our apologies for missing you and contact us, at the editorial office in Poole, as soon as possible.

When the idea of *Software Index* was conceived we drew up a list of nearly 600 software suppliers and wrote to all of them, enclosing the necessary data and forms. However in this fast moving field, new companies start almost daily and, while we have tried to keep our list up to date, it is possible that we have missed one or two suppliers. We would like you to help us make sure every eligible company supplying software for the micros we cover is included.

Just give us a ring on Poole (0202) 671191 and we will send you as many forms as you require to enable your products to be included (an editorial listing is completely free).

If you supply educational software to education authorities, but are not VAT listed, we can probably include your products. Please contact us for details.

IMPROVEMENTS

This is the first issue, we have worked hard to get it right but there are bound to be areas where we can make improvements; we would be very foolish to think otherwise. If you as a reader, supplier, retailer or whatever have any suggestions for the improvement of *Software Index* we are always willing to listen.

We will of course be keeping an eye on all the other micros and it will be our policy to try to list software for any new machines that become best sellers and, for that matter, any older machines that we consider merit inclusion. Having said that, we must point out that there are certain constraints on the editorial space available but we will do our best to give good coverage.

Meanwhile we hope you find this issue invaluable, issue No.2 (1984) will be published on March 2nd and all **new** software listed will be clearly indicated to assist readers.

Program title. Listed alphabetically under each machine and program category, as given at the top of each page. Please note programs are only listed once for each machine. An educational game will be under one category only (Games **or** Education) so make sure you look carefully. Also see note on the Information page. Titles which have been abreviated are spelt out under **Notes.**

Memory required. The amount of memory required to run the program. This is not necessarily a specific amount but means it will run on a 1K, 16K or 64K machine etc. "Unex." indicates the program will run on a standard **unex**panded machine.

Baud rate. If this is not applicable "NA" will appear. You may also find "Norm" for normal.

Sound output. If sound is generated by the program; "Y" for yes, "N" for no, "NA" for not applicable.

Colour display. If colour is generated by the program; "Y" for yes, "N" for no, "NA" for not applicable.

Format of software. Ca. for cassette; D for disc; Cr. for cartridge; L. for Listing; E for EProm, plug in chip.

Cost of the software. The price shown is inclusive of VAT. If the "AA" code is given under retailer the software is normally available direct by mail order for the price shown (in the UK), including postage, etc. Also see note on the Information page.

Suppliers name and address. This is either the UK originator of the program or the UK importer.

Any special notes. Indicating if special or extra periferals are required, if there is anything unusual with the software or if extra items are supplied with it etc.

Retailers code letters. "AA" means as above (i.e. the program can be purchased direct from the listed supplier by mail order). Other codes are listed at the back of the Index, most codes relate to the retailers name, e.g. "BO" is **Boots** (they are not all that good!) so you should be able to recognise a few easily. Where a distributor is used "+ others" indicates a wide range of retailers — see note on the Information page. A phone number in this box indicates you may phone for information on your nearest retailer.

A brief factual description of program operation. Provided by the supplier and edited by SI staff. In many cases this will be enough to decide if you want the software, in some cases it will be enough to decide to investigate further.

LEARNING MATHS — ANGLES

MEM	Unex	BAUD	Norm
COL	Y	SOUND	Y
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

A collection of five programs using animations and simple games to show how angles are formed and names.

LEARNING MATHS — CO-ORDINATES & LINES

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

Five programs including games to introduce the concept of co-ordinates and equations of lines.

LEARNING MATHS — DIRECTED NUMBERS

MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

Three programs using animations and games to introduce the concept of positive and negative numbers.

LEARNING MATHS — ELEMENTARY STATISTICS

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

A set of three programs which use the computer to collect and display data using bar charts, pie charts and scatter diagrams.

LEARNING MATHS — FRACTIONS

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

A collection of four programs using graphics to help children understand fractions.

LEARNING MATHS — MOTION GEOMETRY

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

Three programs which help to introduce the ideas of elementary motion geometry.

LEARNING MATHS — RATIO

MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

A set of four programs introducing the simplification of ratios and their estimation. Uses absorbing games.

LEARNING MATHS — SETS

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

A set of three programs which can be used in conjunction with conventional teaching methods to introduce the concept of sets and encourage organised thoughts and actions.

LEARNING MATHS — SYMMETRY

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£7.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

A collection of five programs which help develop concepts of axis and symmetry. Children can draw pictures or move lines of symmetry.

LETS COUNT

MEM	Unex	BAUD	Norm
COL	Y	SOUND	Y
COST	£10.95	F'MT	Ca
SUP'R	ASK Ltd., London House, 68 Upper Richmond Road, London SW15.		
RET'R	AA & others		
NOTES	None		

A colourful game for young children beginning to learn about numbers. It introduces the numbers 1 to 9 and has sections on ordering and the relations more, less and equal.

LIBRARY DEWEY CLASSIFICATION

MEM	32K	BAUD	Norm

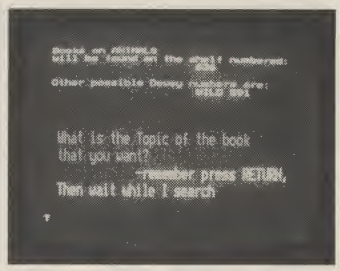
COST	£6.50	F'MT	Ca/D
SUP'R	Aztec Software, 25 St. Mark Road, Deepcar, Sheffield.		
RET'R	AA		
NOTES	Disc £8.50		

Contains 750 different topics. Easy to add many more topics with up to 30 words of information about each topic. Will take over 1000 with average search time of under 3 seconds.



LIFT OFF WITH NUMBERS: NUMERACY 1

MEM	Unex	BAUD	Norm
COL	Y	SOUND	Y
COST	£14.95	F'MT	Ca
SUP'R	Shiva Publishing Ltd., 4 Church Lane Nantwich, Cheshire.		
RET'R	NC BL JS HE CH SM		
NOTES	One of eleven programs which make up the Shiva First Mathematics Programme. Together they form a coherent learning programme but can be used separately.		

The cassette contains 5 programs dealing with numeracy for 5 to 8 year-olds. Washing: hang out the shirts in the correct place to match colour and pattern. Cakes: light the candles on the cakes according to the number of dots on the die. Rockets: match the size of the rockets for blast-off. Binge: make a line to beat your opponent by choosing a square with the same number of dots as the numeral shown on the die. Ladybirds: make the spots on mummy and baby ladybird add up to ten.

LINREG (GRAPHS)

MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£11.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

A general graph-plotting program with wide uses in schools and colleges. Data can be input, transformed and edited and a line of best fit will be drawn.

LOGO CHALLENGE

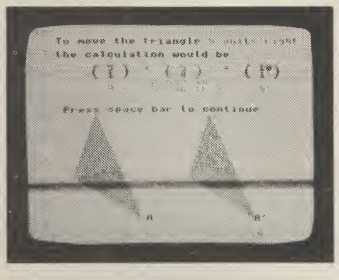
COST	£6	F'MT	Ca/D
SUP'R	Corona Software, 73 High Road, South Woodford, London.		
RET'R	WA GG MW CT GC GU SI		
NOTES	3 programs called Maths, TRI and Quad		

This teaches how to move shapes on a grid in modern mathematics, using matrix calculations. Colour graphics show the constructions; for use by individual students or teachers in class.



MICRO MATHS			
MEM	16K	BAUD	Norm
COL	Y	SOUND	Y
COST	£24.50	F'MT	Ca/D
SUP'R	LCL, 26 Avondale Ave., Stains, Middx.		
RET'R	AN LC LY SN IN CC MH AI		
NOTES	None		

24 easy to use programs taking beginners to O-level standard. It is useful for revision or self-tuition. It is held on 2 cassettes and includes a manual and box. Programs include: Factorisation of algebraic equations, simple and compound interest, statistics, trigonometry, differentiation, solution of triangles, percentages and fractions, changing bases of numbers, indices in algebra, similar triangles, applications of Pythagors' theorem, profit and loss, simplification of bracketed quantities in algebra, ratio and proportion, polygon properties, graphs of linear and quadratic functions, solution of algebraic equations, vectors, matrices, operations on numbers in different bases simultaneous equations.

MISSING SIGNS			
MEM	16K	BAUD	1200
COL	Y	SOUND	N
COST	£11.90	F'MT	Ca/D
SUP'R	Acornsoft Ltd., 4a Market Hill, Cambridge.		
RET'R	AA SM BO JL and others		
NOTES	Disc extra cost, requires 32K		

Put in the signs: presents incomplete sums into which pupils must insert the correct sign. After two wrong attempts the correct answer is given. Missing Signs: two programs present equations with the balancing sign missing. Both sides must be calculated to decide whether the missing sign is greater than, less than, or equal to (>, <, or =). The equations contain one and two digit numbers.

MITOSIS			
MEM	32K	BAUD	Norm
COL	N	SOUND	N
COST	£9.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

Revision exercise for CSE/O level biology. Tests knowledge of various stages of mitosis.

MODELS IN PHYSICS			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£15.00	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

A set of three programs which provide simple simulations of common experiments and phenomena described in physics courses. Millikan's oil drop experiment, line spectra, Rutherford's scattering experiment.

MONEYBOX			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£5.10	F'MT	Ca/D
SUP'R	Bryants (Ed.) Software, 1 The Hollies, Chalcraft Lane, M. Bersted, Bognor Regis.		
RET'R	IN MR MO BA NA		
NOTES	None		

Shop-keepers arithmetic where you earn 10p for each correct answer: a pound earns a 'Man-v-Dragaroo' battle reward. Covers multiplication and subtraction (with 'add-on' choice).

MORSE CODE FUN			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£3.00	F'MT	Ca/D
SUP'R	Aztec Software, 25 St. Mark Road, Deepcar, Sheffield.		
RET'R	AA		
NOTES	Disc £5.00		

Incorporates a large number of key words which can be used for identification of audio or written morse. Also instructs in primary letter identification and translation into Morse.

MUSICAL NUMBERS			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£5.10	F'MT	Ca/D
SUP'R	Bryants (Ed.) Software, 1 The Hollies, Chalcraft Lane, N. Bersted, Bognor Regis.		
RET'R	IN MR MO BA NS		
NOTES	Disc extra cost		

Continuous loop counts in words and figures to ten for very young: No user operations required. Generated routines provide musical accompaniment and imaginative graphics.

MUSIC TUTOR			
MEM	32K	BAUD	Norm
COL	N	SOUND	Y
COST	£10.95	F'MT	Ca/D
SUP'R	Garland Computing, 35 Dean Hill, Plymouth.		
RET'R	AA & others		
NOTES	None		

A unique program allowing you to enter notes. Pitch and duration is displayed on the screen. Many other options, allowing play-back, alteration, saving tunes.

NUMBER BALANCE			
MEM	32K	BAUD	1200
COL	Y	SOUND	N
COST	£11.90	F'MT	Ca/D
SUP'R	Acornsoft Ltd., 4a Market Hill, Cambridge.		
RET'R	AA SM BO JL and others		
NOTES	Disc £15.35		

These two programs give practice in simple mathematical operations for numbers 1-20. The object is to make a balance level by inputting the correct missing number into one side of a simple equation. Incorrect answers tilt the balance in the appropriate direction; with the correct answer after three incorrect tries.

NUMBERBONDS			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£5.10	F'MT	Ca/D
SUP'R	Bryants (Ed.) Software, 1 The Hollies, Chalcraft Lane, N. Bersted, Bognor Regis.		
RET'R	IN MR MO BA NS		
NOTES	Disc extra cost		

Covers simple to double formulation of equations where turning (example) 29+37 into (30−1) + (30+7) encourages basic number concepts. Will provide number sequences for mental addition.

NUMBER GULPER			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£10.95	F'MT	Ca
SUP'R	ASK Ltd., London House, 68 Upper Richmond Road, London SW15.		
RET'R	AA & others		
NOTES	None		

To improve mathematical skills. Explores the relationship between the four basic arithmetic operations. Players must achieve a result number using only numbers shown on the screen (each with an operator attached) (age 5-12).

NUMBER PUZZLER			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£10.95	F'MT	Ca
SUP'R	ASK Ltd., London House, 68 Upper Richmond Road, London SW15.		
RET'R	AA & others		
NOTES	None		

Three games in additional and subtraction involving numerical noughts and crosses. Winning strategies are achieved by adding numbers together or decomposing one of them into separate parts (age 4-12).

NUMBER RALLY			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£9.95	F'MT	Ca
SUP'R	Longman Group Ltd., Longman House, Burntmill, Harlow, Essex.		
RET'R	AA		
NOTES	None		

A car rally game which helps children practise adding, subtracting, multiplying and dividing. Four levels of difficulty.

500 words often mis-slept are in this program. A definition and clue are given — spell it right, and you can enter the cave — wrongly, and the thieves get you.

OSCILLOSCOPE			
MEM	32K	BAUD	Norm
COL	N	SOUND	N
COST	£15.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others		
NOTES	None		

Simulation of the workings or the Cathode-ray Oscilloscope. Perspective drawing and screen view shown. Fully interactive, allowing input of different voltages, selection of different waves.

PEEKO-COMPUTER			
MEM	16K	BAUD	1200
COL	Y	SOUND	N
COST	£9.95	F'MT	Ca/D
SUP'R	Acornsoft Limited, 4a Market Hill, Cambridge.		
RET'R	AA SM BO JL & others		
NOTES	Disc £11.50 requires 32K		

Peeko-Computer simulates the operation of a simplified microcomputer for teaching the fundamentals of machine-code programming. It has ten easily-learned instructions and gives a visual analogy of a real microcomputer.

PERSPECTIVE			
MEM	32K	BAUD	Norm
COL	Y	SOUND	N
COST	£6.50	F'MT	Ca/D
SUP'R	Aztec Software, 25 St. Mark Road, Deepcar, Sheffied.

COL	N	SOUND	N
COST	£6.95	F'MT	Ca
SUP'R	Micro Power Ltd., 8/8a Regent Street, Chapel Allerton, Leeds.		
RET'R	AA		
NOTES	None		

A teaching aid for students of CSE, 'O' level and 'A' level physics. Displays measurements of mass, work, temperature, etc., along with their associated units, and tests accordingly.

PHYSPROB			
MEM	16K	BAUD	Norm
COL	Y	SOUND	Y
COST	£3.00	F'MT	Ca
SUP'R	AVC Software, PO Box 415, Harborne, Birmingham.		
RET'R	AA		
NOTES	Printer option		

Test of ten physics questions from pools of twenty at each of three levels or mixed. With 10/10, the rocket, built during the game, takes off. CSE upwards.

POPULATION GENETICS			
MEM	32K	BAUD	Norm
COL	Y	SOUND	Y
COST	£15.00	F'MT	Ca/D
SUP'R	Garland Computing, 36 Dean Hill, Plymouth		
RET'R	AA and others

Harrier Attack ORIC-1 and SPECTRUM

Pure machine-code, super-fast, action-packed, highly addictive arcade-style game requiring great skill. The harrier takes-off from an aircraft-carrier and flies over seaborne defences to attack enemy installations on a nearby island. The harrier may fly faster, slower, higher or lower, and has bombs and rocket fire with which to protect itself and make its own attack. If it flies too high it is detected by enemy jet-fighters (which it may counter-attack) – so it needs to hug the mountainous terrain which also varies with every new game. But the island is heavily defended by anti-aircraft rockets and tanks, which again the harrier may counter-attack or try to fly through. A tally is kept of fuel, bombs and rockets, plus player score and high score. Finally the harrier must make its bomb-run over the enemy base before returning to its own carrier.

ORIC APPROVED VERSION £6.95
SPECTRUM VERSION £5.50

Starfighter ORIC-1 (48K only)

You are in command of a galactic defence vessel travelling through inter-stellar space to attack and destroy intruding aliens. At long range this is carried-out on your computer scanner which displays stars in the local quadrant, with passing planets, space stations, star-gates, and of course the aliens which may strike in packs or singly, scattering anti-matter mines around your ship. You may counter-attack the aliens with your photon torpedoes, or if you move-in close enough switch over to manual and visual control to chase the fleeing alien and blast him with your phasors. See the star-scape spin relative to your ship's manoeuvres, but watch-out for the alien mines whizzing past. You will need to conserve energy carefully to get back to the refuelling points, and then the time-gates to the other quadrants. Weapons, shield and energy status are all monitored throughout this pure machine code game, which may be set to tenlevels of skill.

ORIC APPROVED VERSION £6.95

GALAXY 5 ORIC-1

Side one of Galaxy 5 contains three pure machine code arcade type space games. They consist of 'Galaxy' which is a Galaxian-type game with 15 winged aliens swooping down to bomb a left/right controlled rocket launcher in groups of one, two or three. Next 'Astro War' is an asteroids-type game with a meteor shower moving sideways across the screen towards your ship which has right,left,up and down controls plus phasor fire to blast the meteors along with any aliens that may be hiding amongst them. The last game on this side is 'Space Chase' which gives a view from your cockpit of a fleeing alien. You fire at him and he fires back, so you must get a direct hit quickly before he destroys your force shields. Side two of this tape consists of two more arcade type space games but this time in BASIC, which are easy to learn from, being short, simple and clearly written with every line of the BASIC explained in an English REMark statement.

ORIC VERSION £6.95

Assembler/Disassembler ORIC-1

The assembler follows standard 6502 conventions and has proved very reliable while in continual use by Durell Software. Features include the following:

Generally	*List File*	*Pseudo-Ops*
Auto line numbering	LIST	EQUATE
Six character labels	DELETE	BYTE
Updatable list-file	LLIST	DBYTE
Maths on operands	ALTER	WORD
Syntax checking	INSERT	TEXT

ORIC VERSION £6.95

Jungle Troubles SPECTRUM

Pure machine code with super cartoon graphics. This original and witty game is set in the depths of the African jungle. First you must direct your man to collect an axe and cross a nearby river via stepping stones that protect him from a lurking crocodile. Then he must climb a ladder to the next level, where he has to fell a number of trees in his path. As he does this a marauding ape appears from the left of the screen and steals his axe! So back to the start for another axe and more problems with the crocodile! And the ape! Having hacked a path through the forest he may climb another ladder to level three where he has to leap a pit of flames by grabbing a swinging rope. Will he ever escape back to the city? Can he jump the chasm that suddenly opens before him just as he is about to reach home? A highly amusing game with delightful graphics suited to all members of the family – but very frustrating and addictive.

HISOFT PASCAL DEVPAC

Quality ZX SPECTRUM* Software

HISOFT PASCAL 4T

"... I haven't seen any other compiler that could match Hisoft's Pascal" ... *Using the Spectrum Micro — Autumn 1983*
"This is a very impressive product ... of benefit to any Spectrum programmer ..." *David Bolton ZX COMPUTING Aug/Sept 1983*

Just two comments from full length reviews of our powerful and virtually full implementation of Standard Pascal. The advantages of using Pascal are well-known — fast, self-documenting, and above all, structured programs and now, with Hisoft Pascal, you can reap all these benefits on a wide range of home computers, including the 48K Sinclair Spectrum! Hisoft Pascal produces programs that run typically 40 times faster than equivalent ZX BASIC programs and, sometimes, up to 1,000 times faster!

Hisoft Pascal supports FOR ... DO, WHILE ... DO, REPEAT ... UNTIL, CASE ... OF, INTEGERs, REALs, CHARacters, RECORDs, POINTERs, SETs, ARRAYs etc. etc. — it is not a Tiny Pascal but a virtually full implementation of the language allowing the user to develop true high-level language skills while attaining execution speed close to that of machine code. Complete with a 70-pge manual.

Price:
Hisoft Pascal 4T (ZX SPECTRUM) £25 inclusive
(NewBrain, SHARP MZ700 etc) £35 plus VAT

HISOFT DEVPAC 3

"... DEVPAC is most highly recommended. The documentation is first class." *Your Computer May 1983*
"... if you write programs in machine code, buy DEVPAC — it is the best currently on the market." *Adam Denning, ZX SOFT in Which Micro September 1983*

Two comments from reviews of earlier versions of DEVPAC — **now** we have DEVPAC 3 available: a powerful Z80 assembler with conditional assembly, assembly from tape (to enable generation of very large code files), ORG, EQU, DEFB, DEFS, DEFW, DEFM, labels of any length — in fact all you need for fast (3,000 lines per minute) and powerful assembly programming. But it doesn't stop there: DEVPAC 3 also includes an incredible debugger/dis-assembler giving you a 'front panel' display of the Z80 system and allowing extensive debugging of your machine-code program, including single-stepping programs **EVEN IN ROM!!** Open up the secrets of low-level programming with DEVPAC 3.

Price:
Hisoft DEVPAC 3 (ZX SPECTRUM) £14 inclusive
(NewBrain) £25 plus VAT

Hisoft Pascal and DEVPAC are also available in a wide range of disk formats. Please write for details.
£££STOP PRESS★★★ Hisoft Pascal for the SPECTRUM now comes with a Turtle Graphics package allowing fast and easy production of complex graphic displays
Hisoft Pascal and DEVPAC are now available for the Sinclair ZX Microdrive. Please write for details.

Practical Electronics can teach you how the computer works, you can learn the ideas behind the microprocessor, see where technology is going and how it is, and will, effect our lives in the coming years. You can also learn to build add ons for your computer, electronic peripherals that will allow your computer to control electrical equipment, or that can expand the memory, provide autosave functions, or even provide a second keyboard and v.d.u. for remote operation.

In our January issue on sale now there is a series on *Expanding the VIC 20* and *Simple Speech* (speech aquisition and reproduction by computer).

In the February issue on sale on Friday, January 6, we look at buying *Monitors for Home Computers*, introduce our *Computer Terminal* and round off the VIC 20 series.

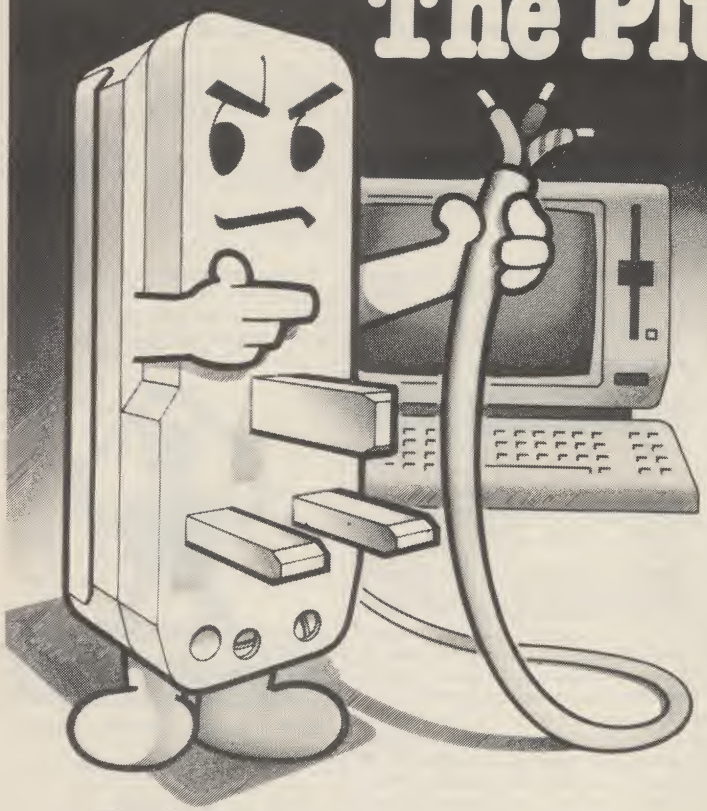
The Plug says 'No' to dirty power.



WARNING: Unfiltered power can damage your computer's health.

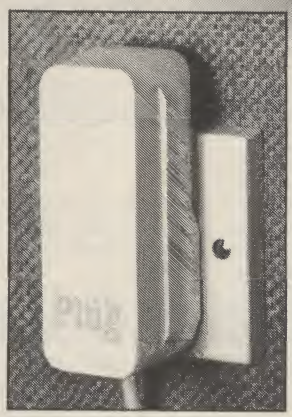
WHY

Because dirty power is the most likely cause of the unexplained errors and circuit malfunctions which can upset all micro based products and their users.

HOW

The Plug with its own built in filter and transient suppressor reduces the effect of electrical noise and spikes and increases the reliability of both hardware and software.

Protect your computer from unnecessary power problems, say 'No' to dirty power.



R.R.P. £15.50 including p.p.
Dealer enquiries welcome.

The Plug is available from dealers or direct from the manufacturer

MAIL ORDER ADVERTISING

British Code of Advertising Practice

Advertisements in this publication are required to conform to the British Code of Advertising Practice. In respect of mail order advertisements where money is paid in advance, the code requires advertisers to fulfil orders within 28 days, unless a longer delivery period is stated. Where proofs are returned undamaged within seven days, the purchaser's money must be refunded. Please retain proof of postage/despatch, as this may be needed.

Mail Order Protection Scheme

If you order goods from Mail Order advertisements in this magazine and pay by post in advance of delivery, SOFTWARE INDEX will consider you for compensation if the Advertiser should become insolvent or bankrupt, provided:

(1) You have not received the goods or had your money returned; and

(2) You write to the Publisher of SOFTWARE INDEX summarising the situation not earlier than 28 days from the day you sent your order and not later than two months from that day.

Please do not wait until the last moment to inform us. When you write, we will tell you how to make your claims and what evidence of payment is required.

We guarantee to meet claims from readers made in accordance with the above procedance as soon as possible after the Advertiser has been declared bankrupt or insolvent.

This guarantee covers only advance payment sent in direct response to an advertisement in this magazine not, for example, payment made in response to catalogues etc, received as a result of answering such advertisements. Classified advertisements are excluded.
